

Daisy Caddy Fixed

Easy to use power roller with unique drive disengage

Caddy Fixed Has A Model That's Right For You!

Power roller with unique disengage system perfect for large domestic and commercial pools. With the Caddy Pro as a mobile winch for large commercial pools, the Caddy Fixed Roller is designed to deliver smooth, efficient operation for pools up to 25 metres in length.

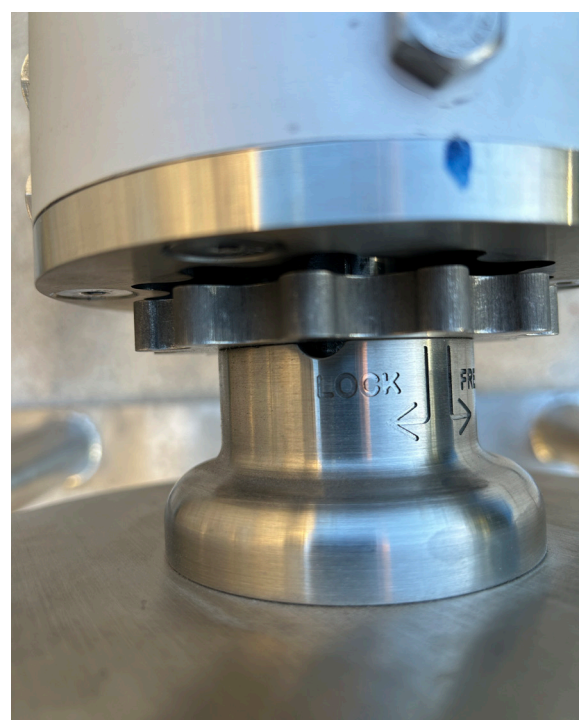

Solution Inspired Design For:

- Unique drive disengage system for redundancy and fast, easy deployment
- GPO power supply with low voltage to motor
- Designed for both residential and commercial pools up to 25 metres in length.
 - 50m options available
- Perfect for large domestic, swim schools and commercial applications
- Ideal for locations with consistent roller placement
- Power Models to suit any application
 - Wall Mount
 - Post Mount
 - Mobile
 - Under Bench Roller

Unique Disengage System

Every detail of the Caddy Fixed has been carefully considered to give you the best in fixed roller performance.

The Caddy Fixed Roller features a new drive disengage system that allows for easy deployment and redundancy. This system drives the roller and simply disengages to free-wheel mode when needed, making it even easier to use.

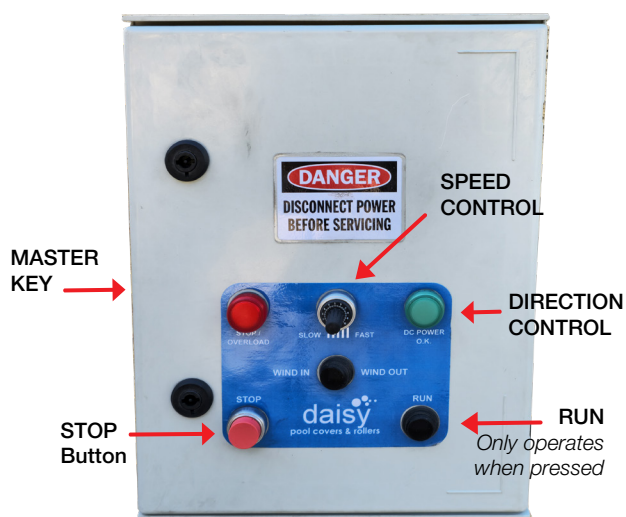

Wall-Mounted Controller

With a wall-mounted controller, users can easily manage speed control and isolation, ensuring smooth operation.

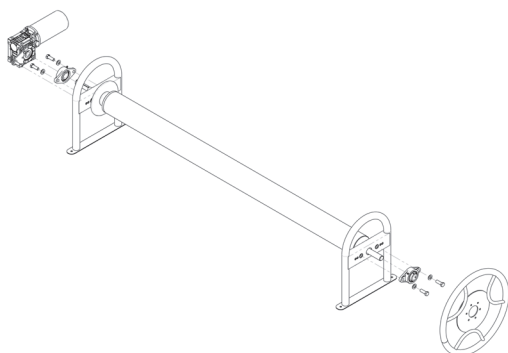

Features:

- **Soft Start and Stop:** The roller is designed with a soft start and stop mechanism, providing gentle operation that extends the life of both the cover and the roller.
- **Speed Control:** Adjust the roller's speed to suit your needs, ensuring optimal performance every time.
- **Remote Control:** The unit comes with a remote control, allowing for convenient operation from a distance.
- **Direction Control:** The roller only drives when you press the button, offering precise control over the cover's movement.
- **Stainless Steel:** Durable 316 stainless steel frames and roller bearings ensure long-lasting, reliable performance.
- **Removable Handwheel Adaptor:** The handwheel adaptor can be removed, ensuring that the handwheel is not permanently mounted to the roller, providing flexibility in operation.

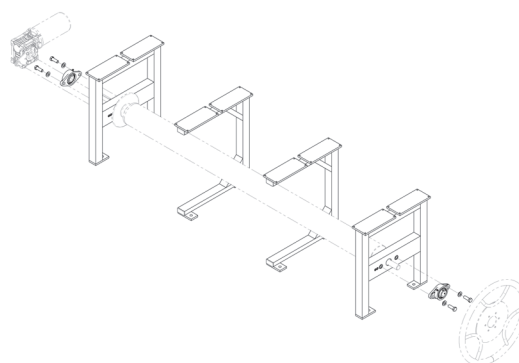

Versatile Models For Every Installation

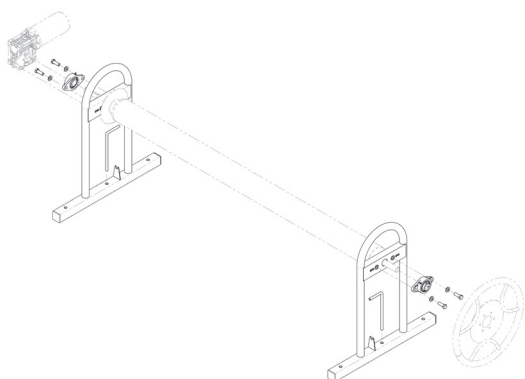

Whether your installation is commercial or residential, Daisy's Caddy Fixed Roller range offers a model to suit every environment. Designed for strength, convenience, and adaptability, the Caddy Fixed can be configured to match your pool layout and usage requirements.
